9) If the suggestion of the Senior Surgeon is to prevail, it will be one Department paying to another, with neither loss or gain eventually to the fund. But technically it is perhaps correct to have a record of all expenditure of one dept and earnings of another. The Medical Dept will get credit for all its earnings the Police Dept will show its actual expenditure, though as stated already there is no loss or gain to fund from the transaction. The analogy of exemption from payment of fees for medical Certificates is not in point. The request of the Dy. Supt Police may perhaps be declined. He may make the necessary provision in the Budget for expenses of the kind

No. C. 73/25

Office of the
Inspector General of Police in Mysore,
Dated Bangalore, the 11th Aug. 1926

46

From

P.F.Bowring,Esq., J.P.,
Inspector General of Police in Mysore.

B. Nagappa, Esq., Bar-at-Law,
Secretary to the Government of Mysore,
Local & Legislative Departments.

Sir,

I have the honor to state that the District Superintendent of Police, Mysore in his letter No.H.C.52/25-26 dated the 26th April 1926 reports that the Medical Officer, Krishnarajendra Hospital has sent a bill for Rs. 10/- (under G.O.No.20997-8/Med.198-18-2 dated 21-3-19) for examining under X ray one Hombale a minor girl (99?) concerned in a case of kidnapping of the Yedatore Taluk. A similar claim is put forward (under G.O.No.9273-4/Med-165-04 dated 8-4-05) by the Medical Officer, Victoria Hospital, for having examined one Giriamma complainant in Hebbagodi rape case of Anekal Taluk. The two Government orders referred to above apply only to private persons, and the fee of Rs. 10/- cannot be claimed from Government when Police Officers send complainants concerned in Criminal cases for the purpose of ascertaining their correct age, on which important factor the case for the prosecution depends.

In cases where owing to the absence of Birth and Death Registers or such other authentic records the correct age of a person cannot be estimated on personal appearances and such other tests, the parties may have to be subjected to X Ray for forming an accurate opinion on scientific grounds. I therefore request you to obtain early orders of Government extending the concession contained in G.O. No.5601-42/76-4 Med. dated 31-12-1904 (exempting the Police Department from paying Rs.5/- for certificates in cognizable hurt cases) to examination

examination by X Ray and by directing Medical Officers to exa[redacted]ne under X Ray free of cost persons concerned in Special and important cases produced by the Police, solely for the advancement of public justice and on the written requisition of a Police Officer not below the rank of an Assistant Superintendent of Police.

I have the honor to be,
Sir,
Your most obedient servant,

Inspector General of Police.

Office of the Senior Surgeon in Mysore,

Bangalore, dated 24th September 1926.

No. G.C.107-3

Enc. one

From

Dr. B. Mahomed Usmon, L.M.S.,
Senior Surgeon in Mysore, Bangalore.

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Medical and Agricultural Department
Bangal

With reference to your letter No; G. 2386-Med. 46-26-2, dated 31st August 1926, calling for my opinion on the claim of the Police Department for exemption from payment of the prescribed fees for X-Ray photographs taken in connection with Police Cases, I have the honour to state that although the wording used in the letter of the Inspector-General of Police is "X-Ray Examination," yet cases of the kind in question require skiagrams to be taken and not merely examination under X-Ray, which is otherwise called screening. Taking of skiagrams means cost of plates and chemicals for developing the plates, besides wear and tear of the costly machinery used. Hence a fee of Rs.10/- was prescribed for this class of work in Government Order No. 9273-4/Med. 165-04-4, dated 8th April 1905 and the collection is credited to Government as per Government Order No. 7779-80/ Med. 25-13-5, dated 12th February 1914.

A copy of letter No. G. 649, dated 17th September1926, from the Medical Officer, Victoria Hospital, on the subject is enclosed. I quite agree with him that, when the Medical Department is paying other departments for services rendered, there is no reason why the Medical Department should be expected to forego the legitimate fee due for work of the kind in question which involves much expenditure, as distinguished from ordinary medical work.

The analogy of exemption from payment of fee for medical certificates referred to by the Inspector-General of Police cannot hold in as much as it is a work which does not involve any cost but consists

consists in recording, in the form of a certificate, the result of the examination of the physical condition (wounds, etc.,) of the individual in question.

I have the honour to be,

Sir

Your most obedient servant,

Senior. Surgeon.

Letter No. 649 dated 17th September 1926 from Medical Officer, Victoria Hospital, Bangalore, to the Snior Surgeon in Mysore, Bangalore.

With reference to your No. G.C.107-1, dated 14th/15th September 1926, I have the honour to state that the charges recovered for X-Ray photographs from people other than patients of the hospital are credited to Government and not to the Poor Fund, as per Government OrderNo. 7779-80/Med. 25-13-5, dated 12th February 1924, The skiagrams taken at the instance of the Police, for the purpose of determining the age of people is a service done to the Police department and should therefore be paid for by it just as this hospital pays for the service done by the other departments.

The prescribed fee has been paid by the Police department in the marginally noted cases and only in one case the fee has not been paid, though claimed. Reminders have also been sent to the Superintendent of Police, Bangalore.

I am of opinion that there is no reasonable ground for exempting the Police department from payment. The Police can make the party pay for the skiagrams and in cases where the party is too poor to pay, the department should bear the charges.
